Addendum to IFC Management's Responses to the CAO Investigation Report on Bujagali Energy Ltd and World Power Holdings, Uganda (CAO cases 04, 06, and 07)

Dear Mr. Gratacós:

The attached table contains the initial activities to which IFC's Management has committed in the above-mentioned cases and provides addendum (the Addendum to the IFC Management Responses or "AMR") to the Management Responses for Bujagali 04 and 06 (jointly dated December 5, 2017) and Bujagali 07 (dated January 9, 2018). We ask that you disclose this Addendum on your website next to the respective Management Responses.

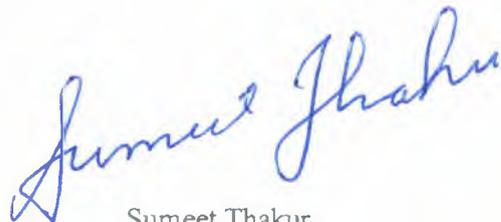

Please note that further IFC Management activities are contingent upon the findings for those studies identified in the table. For this reason, IFC Management will periodically send to you an updated AMR to either identify any further activities, with time-bound commitments, or close out the matter if no further activities can be taken or are deemed to be warranted. While no overall timeline can be placed on any further activities, if warranted, IFC is committed to providing an update on these activities in early March of 2019. IFC will seek to have identified any further activities for, or have closed out, each of the issues by that time.

We thank you for your attention to this matter.

Sincerely,

Robin Sandenburgh
