Describe your complaint

Describe your complaint

I am very upset from MASDAR project construction which is going on in Uzbekistan, Tomdi district, Navoi region. Without my agreement they built their Batching plant not asking me and not notifying me in my land which had to be used for sheep breeding. I have already complained to masdar, sepc 3 and presidential department to solve my issue and now complaining to you as well. I do want them to use my land as production concrete which is not allowed according to Law and agreement with cluster. I want it to be removed ASAP.
